Catering for capacity

The U1 boasts a compact yet high capacity undercounter appliance. It delivers a speedy throughput of 40 litres per hour at a consistent chilled temperature, making it the perfect solution for busy environments including Horeca applications.

Totality™

Driven by a relentless pursuit of excellence, Totality™ is a research and development methodology for the advancement of hygiene, innovation and technology in refreshment systems.

Ultra-violet sterilising system
For added hygiene confidence, appliances can be fitted with Viovand™ – an ultra-violet sterilisation process that reduces water-borne bacteria.

Laboratory certified 99.999% bacteria-free
Every appliance undergoes an anti-microbial, antipathogen, sanitising procedure. The reassurance of hygienically safe appliances is provided by the unique bacteria-eliminating process, Sterizen™.

World-class filtration
For the ultimate drinking experience, appliances can be pre-fitted with a 3M filter to reduce sediment, chlorine, odours and scale.

Additions for U1

Printed paper cups
Environmentally-friendly disposable cups designed to fit dispensers perfectly.

500ml glass bottles
Suitable for dishwashers and bottlewashers. Perfect fit for the U1 tap. Stylish swing-top lid.

Deep Sparkle™ CO² refills
Can be disposed via standard steel recycling or general waste. Requires CO² regulator with gauge.

Sanitisation kit
Six monthly sanitising cycles ensure appliances function at the optimum hygiene levels.

Waste kit overflow sensor
Featuring an audible high-water level alarm to prevent the waste tank from overflowing.

Freestanding drip tray
Alternative non-plumbed drip tray for where integrated drip trays cannot be used.

Install kit with 3M filter
Install appliances simply and effectively in a wide range of applications. Complete with a 3M filter.

Ultra-violet filter kit
Complete Viovand™ filter kit to assist in water purification and removal of unwanted micro-organisms.
