## Catering for capacity

The U2 boasts a compact yet high capacity under-counter appliance. It delivers a speedy throughput of 40 litres per hour at a consistent chilled temperature, making it the perfect solution for busy environments including Horeca applications.

Driven by a relentless pursuit of excellence, Totality™ is a research and development methodology for the advancement of hygiene, innovation and technology in refreshment systems.

**Ultra-violet sterilising system**  
For added hygiene confidence, appliances can be fitted with Viovand™ – an ultra-violet sterilisation process that reduces water-borne bacteria.

**Laboratory certified 99.999% bacteria-free**  
Every appliance undergoes an anti-microbial, antipathogen, sanitising procedure. The reassurance of hygienically safe appliances is provided by the unique bacteria-eliminating process, Sterizen™.

**World-class filtration**  
For the ultimate drinking experience, appliances can be pre-fitted with a 3M filter to reduce sediment, chlorine, odours and scale.
