

NEW SCALE CONTROL

The Scale Control has been developed to lengthen the lifespan of your Quooker by reducing the water hardness. The Scale Control is the most reliable descaling solution for the Quooker and improves the taste of the Quooker water. The Scale Control works with an ion exchange cartridge that can easily be replaced at the end of its lifespan.

Quooker[®]
THE BOILING-WATER TAP

Protect your Quooker from limescale with the

NEW SCALE CONTROL

Benefits

- no more maintenance for limescale removal
- high-capacity cartridge (4200 litres at 10° dH)
